Special Considerations in Trauma	12	1	1		
Moulage	12	2			
Evaluation Station	12	2			
Evaluation Station	#	2			
Evaluation Station	#	2			
Evaluation Station	12	2			

Use this section to comment on specific topics:

“1) Moulage victims helped. Nice having multiple instructors for multiple pov’s. 2) I love the opposing force style.”

What would have improved the program?

“1) Emphasis on getting med. allergies right away in test stations, but buried in secondary survey flow on day 1.

2) Focus on “SAMPLE” more on the first day.”

Please add any additional comments “1) Lower

cost of ITLS book or give good discount if registered for ITLS

class. 2) Thank you! 3) Great class, very interesting. 4) Great

instructors. Scarlett and Tracy are very engaging speakers.

5) Should have taken longer on the pretest for some students.

6) The slides are too much verbage. Videos of trauma

scenarios would be very helpful to watch, discuss,

and evaluate.”
