Use this section to comment on specific topics.

“1) Very informative class. Great instructors. 2) Instructors very knowledgeable. Good class. Learned more, more each topics. 3) There was a lot of confusion for me on shock. There is already a base knowledge we’ve been taught, then Fred taught us 4 categories and the book lists with different names. Handouts. Great reference. 3) Photo copies of the power point to use to keep notes. 4) More days. 5) It would help if you would keep one format of shock in the lecture.”

Please add any additional comments “1) All the instructors are very good. They were able to explain all the topics correlate to their actual experience. 2) As usual this was a great Wizard course. 3) Very excellent topic. Very appropriate, relevant, useful to practice. 4) Love the enthusiasm. Keeps it interesting. 5) Love the course. 6) A sign on the door for the class would be good to prevent other people from entering the wrong room and interrupting the class. Great teaching. Very energetic. Kept me engaged and excited about new ideas.”

Your overall assessment of the course _____
