Evaluation Station 2	10	1		
Evaluation Station 3	10	1		
Evaluation Station 4	10	1		

On a scale of 0 (least likely) to 10 (most likely)

What is the probability that you will recommend this class to a colleague or friend. Please **circle one**.

Net Provider 8:8

Use this section to comment on specific topics. "1) In the stations have students use all skill available to them. If they are able to do IV or combitubes they should have to use them in stations. 2) More discussion of sucking chest wounds, treatment of chest injuries of all kinds."

What would have improved the program? "1) More practice on proper helmet removal with SMR precautions. "
